

# APPLES 2 APPLES

# Proposals

MAKING SURE THEY SAY THE  
SAME THING

## SEALCOATING!

## "Applied vs 2 coats"

If your proposal says "applied" or "apply sealer" - you are getting 1 coat of pavement sealer.

Pavement Maintenance Specialties always gives 2 coats of pavement sealer, allowing the first coat to sufficiently dry before applying the 2nd coat.

## CRACK SEALING

Often times a contractor will put "All Asphalt" for the amount of crack sealer they will use. What does that mean?

Pavement Maintenance Specialties will always give you a measurable quantity when it comes to the amount of crack sealer you are getting. Whether in pounds, linear feet or boxes used - you will always know how much you are getting.
